## EDUCATION

### B.Tech (CSE)

KIET Group of Institutions, Ghaziabad

08/2024 - Present

9.39

### Intermediate

Heritage Academy, Modinagar

2023 - 2024

93.8%

### High School

Heritage Academy, Modinagar

2021 - 2022

94.2%

## WORK EXPERIENCE

### Data Analytics Intern

Deloitte Australia (Virtual Experience)

02/2025

- Analyzed structured datasets using Excel, applying data classification and validation techniques to detect fraudulent patterns.
- Designed an interactive Tableau dashboard, visualizing insights from business data to drive decision-making.
- Utilized data-driven strategies to improve operational efficiency and identify key business trends.
- Applied SQL for data querying and manipulation, ensuring efficient data retrieval for reporting.

### Web Developer Intern

CODSOFT

12/2024 - 01/2025

- Developed and optimized responsive web applications using HTML, CSS, JavaScript, and Bootstrap, enhancing UI/UX for cross-device compatibility.
- Engineered interactive web interfaces, applying clean code principles and accessibility best practices, improving engagement by 30%.
- Integrated frontend components with APIs, ensuring seamless data flow and reducing page load time by 20%.

## ACHIEVEMENTS

Achieved 99.08% and secured an All India Rank of 4705 in the highly competitive Naukri Campus Young Turks Program, demonstrating excellence in problem-solving and analytical skills.

Participated in Unstop Talent Park 2025, demonstrating innovation, problem-solving, and competitive aptitude in a dynamic environment.

## PROJECTS

### Weather Tracking App

- Built a real-time weather tracking website using HTML, CSS, JavaScript, and RESTful API.
- Implemented dynamic UI updates and geolocation-based search for an enhanced user experience.
- **Tech Stack - HTML, CSS, Javascript, API**

### Hangman Game

- Developed an interactive Hangman game using JavaScript and jQuery, featuring dynamic word selection and input validation.
- Integrated audio effects and animations for a better user experience.
- **Tech Stack - HTML, CSS, Javascript, jQuery**

### Simon Game

- Created a Simon memory game with progressive difficulty, animations, and sound effects.
- Used event handling and DOM manipulation to enhance responsiveness.
- **Tech Stack - HTML, CSS, Javascript, jQuery**

### Amazon Clone

- Designed a homepage clone of Amazon using HTML5, CSS3, Flexbox, and Grid.
- Focused on layout accuracy, navigation structure, and visual consistency.
- **Tech Stack - HTML5, CSS3, Flexbox, Grid.**

## CERTIFICATES

### Deloitte Australia Data Analytics Job Simulation Completion Certificate

*Data Visualization, Forensic Analysis, Business Insights*

### Young Turks Certificate

*Aptitude Test*

### Udemy Certificate

*Web Development Course*

### LinkedIn AI Certificate

*Introduction to Artificial Intelligence, Fundamentals of Machine Learning, AI Ethics, Neural Networks Basics*

### LinkedIn Certificate

*Programming Foundations: Fundamentals*
